

# 51-pl-07, Prayer Line 51-07, 79 min

*[51-0729E - National Guard Armory, Erie, PA (Paragraphs: 60 - 88)]*

*[51-0923 - Jeffersonville High School, Jeffersonville, IN (Paragraphs: 77 - 104)]*

## **51-0729E - National Guard Armory, Erie, PA (Paragraphs: 60 - 88)**

**L-61** I just begin to wonder and thinking, maybe because there's not too many healed; I see them out in there in the audience, maybe they're already healed. Now, just be reverent. All right.

Good evening, sister. You believe with all your heart, lady? Now, you and I are strangers, aren't we? Don't know you. You don't know me? Is this our first time meeting? It is. We don't know each other. But God knows both of us. He's knowed me since I was born; He's knowed you since you were born. And I believe He loves us both, because we're both Christians. And you being a Christian sister, and I a Christian brother, and you've heard the remarks that someone has made about this. And there's no doubt that there's something wrong with you. And you come to me as God's servant, your brother, to help you along to believe more in Jesus. Is that right? That is right.

**L-62** Well, if I can do anything for you, I'll be very happy to do it. And I... Only thing that I could do, would be ask God to let you get well. And then, if God would do something now, more than what He's already done, He's already paid the price for your healing. But you're just trying to learn how to write the check for your--for your healing. Well now, if He might do something that would speak to you of something that has been, that'd it'd have to be the spirit of prophecy, or a gift of the word of knowledge, that would go back down through your life's journey, and find something down through there, and bring it back to your memory. Then you'd say that would be something that you'd know come supernaturally. Now, as I said a few moments ago, you being a Christian; I know you're a Christian, or your spirit wouldn't be welcome. You've noticed each night, and in the lines and everywhere, a sinner's always called (See?), it--it won't embrace sin at all. You're my first patient to talk to, my first sister tonight on the platform, not a patient, but the first one that I would talk to. And after being preaching the way I was, it takes just a little time for the anointing to move on me.

**L-63** And you're--you're aware that it's, it's near, don't you? Yes. You're... And now, when you said that, you felt it more than ever, didn't you? It's coming down onto you now.

Now, between you and I comes a real hazy Light. I see you now, sister, yes, you are... You have an arthritis, don't you, sister? Sometimes it--it gets worse than others. I see you with kind of a lightish looking dress on. And you're--you was walking somewhere. And you was just kind of a limping like, and you had to set down and rest. It was in a yard or something. Look like there's a lot of grass and trees around. I see also, that you have a--you have a gallbladder trouble too, don't you? I see the examinatio... Say, my, you've had operation too, haven't you, sister? More, yeah, you've had two or three, four, five, six, you've had six operations. Is that right? Yes, sir. All right, come here and be healed, sister.

Our heavenly Father, and merciful God, grant the healing of my sister standing here. May she, Lord God, be made well tonight, as I bless her in the Name of Thy holy Child, Jesus. May she go from this platform and be a well woman. In the Name of the Son of God, Jesus Christ. Amen. You believe me? If I tell you that you're going to be well, you believe it? You are. God bless you...?...

Let's say, "Praise the Lord."

Look at her walking now. She's already healed. Let's bless the Lord. All right, bring the next lady.

**L-64** Good evening, lady. You believe with all your heart? You're trying to, aren't you, sister? Yes. Yes, ma'am. Well, do not fear. You're surprising yourself. There's been a time in your life lady, where you've been hindered. There's been many things that's bothered you. You're a tubercular case, aren't you? You suffer with tubercular. And you've had lots of trouble. You have. And you've--you've tried to have faith. Say, you--you belong to the Holiness people, the Pentecostal people, or something. Isn't that right? I

seen you in the services where you're rejoicing.

And you're embarrassed sometimes when you're trying to... You cough a whole lot, and many times you pretend that it's something else, instead of trying to admit that it's tubercular. You won't have to do that no more, lady. This is going to be the hour for you to be healed. Come here. You believe me as God's servant?

Almighty God, Author of Life, give grace to our sister tonight, seeing her heart breaking down here, You going back in there pulling out things of her life. Satan, I come in the representative Name of Jesus Christ, the Son of God; you've hid from doctor and all, but you can't hide from God. In the Name of Jesus Christ, I lay my hands upon this woman and ask for her healing. Come out of her in the Name of the Lord Jesus. Go sister, testify and glorify God.

**L-65** Let's say, "Praise the Lord." Amen.

Oh, that's the way I like to see the people come. Faith, come like Mary did, "Lord, even now, whatever You ask God, God will do it, no matter what it is." All right, bring the lady. All right, everyone reverent now and believe with all your heart.

Audience, if you could only know how this feels here right now. What a feeling: Grace, grace, amazing grace. It just looks to me now, 'course I'm standing here and the anointing's here. It just looks to me that every person in the building could just raise up and be healed. That's the way it looks to me like. Now, try to hold back just a few minutes if you can. See? Just if you... That's awful to say that, but just try, so that these along here can get a view, maybe first time people here. Have faith now, believe just now that Jesus is going to make you well. Be accepting it and pray, have faith.

**L-66** How do you do, lady? Now, every one reverent. Are we strangers? We're strangers, I don't remember if I ever seen you. And well, there's... If there's anything that's wrong with you, well, I'll--I'll--I'll have to have some way to find it out some way. Now, that wouldn't heal you, if I could know what was wrong with you; it wouldn't heal you. But it might give you encouragement. You're wondering what I'm going to say. I'm not reading your--Yes, I guess it is. That's right. I--I don't mean to say... I just knew what you were thinking of then, 'cause it come to me. Now, you know that's true, isn't it? You're wondering what I was going to say. Well, I'm going to tell you what I'm going to say.

Your trouble is a freak case. It's hard to understand; it's some kind of a--a gland or a tube in your body has collapsed. Isn't that right? And I say it's from your ear to your throat. How about that, is that right? Go, Jesus Christ has made you well, you can be well. God bless you, sister.

Let's say, "Praise the Lord."

**L-67** Just faith, that's all, I seen that laying like a tube open up, like that, coming down the side of her face. Oh, how wonderful, how amazing. No wonder he said, Amazing grace! how sweet the sound. Have faith, believe now, and God will bring it to pass. Do you believe it? What about all of you along the line there? Believing with all your heart? How about out here? You believing? All right, just keep having faith, God will bring it to pass.

**L-68** Bring your patient. Now, everybody be reverent. Good evening, lady. A timid spirit, that's the kind, usually that's kind of a little timid type. Don't have too much to say, deep thinker, always planning things ahead. Usually never happens that way though. But you had some good teaching; you--you've had many sorrows too, haven't you, lady? Had a great scare once in your life too. Something, seemed like when you was a school girl. I believe it was a dog or something along. I see something bark or go on and you jump, scream. You was just a little child. And down comes life coming down. Recently you been real nervous, oh, yes, here's something else moving up. Sister, I'm sorry, yes, I believe you know it. It's cancer. And come here just a moment.

I want you take a look at my hand. I want you take your hand here and lay it on mine. Look at my hand how it turns there, see that? See those white things running across my hand? That's the life of the cancer. I'm going to take my hand off. Now, they cease. Now, I put my hand on, it's not there is it? Put

your other hand here on: not there. You're just as much human in this hand as you are in this hand, aren't you? The same hand, same person. Now, just change your hands back again, this one here. Now, look coming there. See what it is? Now, watch it just as I hold it there a moment. Watch the hand, see how it's swelling, turning dark, little white things running over the top of it. Is that right? If it is, raise this hand so the audience will know it's true.

**L-69** Now, just take your hand off of mine, just easily, there they go. Now, put my hand on there. They're not, are they? Well, I'm just as human as you. See, I want you to notice; it isn't the position that the hand is in. Now, put this one back here. See? Now, it isn't positionally the way the hand is; it's just the same. Is that right? Now, I've told you the truth haven't I, lady? And now, you see then that the truth has been told you by a vision, that something physically here is vindicating that it's true also.

Now, I can't make that leave you; only your faith can. But this is going to be something. Because your type of person that--that tries to believe. But you--you're--you're the... I don't know just how to explain... You know what I'm trying to speak of, your type of person, timid, backward. And it's just something... You--you want to believe, but you try to make yourself, push yourself to thing, but that won't work. See? It's just got to be a settled faith like your mother would've told you when you was a little girl, "Darling, I'll get you a new dress Saturday night." You look forward to it (See?); you look forward to getting that new dress. Now, just look the same thing to God to heal you. Just settled, just... He's your heavenly Father. Your mother might not be able to carry out that obligation, but God's able to carry out everything He promises you. See?

**L-70** Now, look at my hand now since it's been on there a little bit. Now, now watch, when you raise your hand now, my hand will remain like that for a few moments. Now, you see, a few moments ago when your hand just laid there a little bit and it wen... You took your hand off, my hand turned normal just a way, didn't it? Now, move your hand, now watch how long it stays there. Now, look here; there it goes. See, see? See what I mean? Now, just lay your hand right back again, so the palm will hit on it. There it comes, see it coming again? There it is, see it swelling again, turning black. All right.

Look lady, I want you to come this way just a minute. So that, to make your faith. Now, in your case, it's going to take a challenge. And the challenge is going to be, is going to have to command that to go out. Now, if I have to rule it out by my own faith, for God has promised me that if I be sincere... It can leave you now, and you'll know it. But now whether it will stay away from you, that's different. Because when the unclean spirit's gone out of a man he walks in dry places. Then he returns back, is that right? And if the good man of the house isn't there to hold him off, he will come in.

**L-71** Now, what we're trying to get is more strength in the good man of your house, which is faith. Is that right? Now, if you can look at here now and see that by revelation, and by something physically actually showing on your hand, on my hand, rather, that something's happening... You notice how it goes in waves like that?

Now, audience, I don't know whether you can see it or not, watch here. Now, there it is. See it coming up? Watch it go, now there it's moving away. See? Now, here it comes again, look, there it is, see it? Watch it go. Listen at it that, "Thrrr [Brother Branham illustrates.--Ed.]" Just a moment, don't--don't stand that say fear. Now, can you see it? Can you see it? Now, watch. Now, there it goes; here it comes again; look at it. Here they come; there they go. Now, what is that? That's a malignant growth laying there, alive, a demon, hideous, dark. And that thing knows. See, she's a lady, me a man; we're both human. She's got a spirit that's trying to believe, and there's something on here does believe. And the only thing is get her faith up to a place to where she really does believe. It has to leave. It has to leave. It knows that. And if it--and if it--if it--if it has to, if it leaves, then if her faith will stay there, it'll take it out.

**L-72** You watch, I see the blind come to the platform and receive their sight and read the Bible. Two or three days, come back just as blind as they ever was. Say, "How lasting is Divine healing? " Just as long

as faith is. "How lasting is salvation?" Just as long as faith remains. Is that right? All right. If God can make it leave here, He can keep it away. The same faith.

Now, look at my hand there now. And I want you to watch my hand here. Let me, so I can let the audience... Now, see my hand? I want you to look here. I'll put my hand on there, right this way so you can see. See how smooth it looks, white. Now, take this hand, lady, now lay this hand on there. See how it's smooth and white, see now, just as smooth and white as it can be.

Now, I put my hand on, now watch when I lay this hand here on. Now, lay this hand right here, lady, on. Now, look at there. Look here, see them big white things running there? That's the life of that cancer. Now, it's scared; it knows it's going to have to leave if her faith will only believe.

Now, look, lady, now the... Look at that one there, see how it faded? It's a female disorder too, hitting there also. You knew that. Uh-huh. Yes, my. Say, you've had troubles haven't you, lady? You've had operations for growths before too, haven't you? All right.

**L-73** Now, I want you, the patient, to come near. I--I want to station my hand here somewhere so it'll take all doubts and everything. Now, I want you to watch my hand, sister dear. Now, you... I want you, don't--don't you close your eyes. You watch my hand. I'm going to have the audience because this time the thing has to be run out. I may be by God's grace, and by my faith, it will go. But you're truly sure that something's happen, haven't you? It's there; it shows it physically. The Bible said, "The mouth of two or three witnesses let every word be established."

First thing, you being a stranger and me telling of your life, and if--what was wrong with you. Here it is showing here. That's two witnesses. If it stays, the only thing I can say, sister dear, is God have mercy. You won't have much longer to be here. But if it goes, you're going to live. Now, I--I want you to believe with me, and I'll pray and ask God if He will heal you and let it go. If that stops, it's gone. If it doesn't stop, it's not gone. Now, it's being honest with you, isn't it, as--as a lady, my sister.

**L-74** All right now, audience, now remember this: now get this as a warning, you keep your head bowed until you hear me say, "Raise your head." For this is not... Now, if I'd ask it to go and it would go, all right. But when you have to put it out, it's molested.

Now, I want to ask you something, ministers. Jesus said, "In My Name they shall cast out devils." Is that right? They shall cast out. Now, I don't say that I can. But the woman will know if it does, she'll know it, feel it, know it when it leaves. If it doesn't, the woman can't live much longer. [\[Mark 16:17\]](#)

Now, lady, you watch and be believing. Be believing that what's talking to you now comes from the Spirit of God. All right, bow your heads, inside and out. Now, I want you to watch; you be the judge. Now, see, you're the one's got the cancer. It can't bother you no more. See? Now, I'm going to try to lay my hand somewhere. Now, see how, what color it is? Now, look at this hand here. Now, I'll try not to move my hand at all.

**L-75** Our heavenly Father, I'm not doing this to act smart, Father, You know my heart. I'm only doing this, that this poor woman standing here, young woman, much life left; but she's in a serious condition. And I ask Thee to be merciful to her. Grant Lord, that she can be made well. She wants to live like all of us. We all want to live, and she's trying hard. And now, dear God, poor little timid thing, I realize that people maybe with a few minor troubles will live an ordinary life with them. But we realize with this cancer she can't live much longer without Your help. And I pray, God, that You'll help. And help my faith, Lord, to believe with all my heart. And send the power and the anointing of Your Angel, that He will--He--the Blood of Christ will stand between me and this enemy.

And now, Satan, called cancer, I come in this duel of faith, professing solemn faith in Jesus Christ, claiming a Divine gift that was ministered to me by an Angel of God the hour I was born in this world. Which has been vindicated throughout the world. And you know all about Him. And this woman comes tonight for help, and I come in this channel of faith in a challenge; I claim you can't hold this woman any longer; come out of her. In the Name of Jesus Christ, leave the woman. Thou, demon, come out of the

woman.

**L-76** Everyone reverent, it's still holding her; she's watching my hand. It's still there, isn't it, sister? 'Fore I open my eyes. Everyone reverent. Be in prayer.

Almighty God, Author of Life, Giver of every good gift, You promised this, Lord; I believe You. Oh, hear my prayer, answer Thy servant, Lord. Give something to our sister; she's trying to believe, Lord. Grant it.

Thou demon, in the Name of Jesus Christ, come out from the woman.

Now, every one; there it goes. Keep--keep your heads bowed everywhere. There it goes, lady.

Now, before I open my eyes, you watching my hand; it's left, has it? My hand's turned back normal, is that right? The lady, the patient, I'm asking you to speak. Yes, all right, open your eyes, everyone before I do. I want you to look at my hand. Something's happened, hasn't it, sister? What you think has happened? [Sister say, "I'm healed."--Ed.] You're healed is right, sister.

Now, watch her, audience, see my hand? Now, take your hand off. Put this one here on. Now, put this one on, now, put this one on. Something has happened, hasn't it, sister? You know that physically looking, is that right? Look audience, same hand, same position, same place, everywhere. Is that right? Something happened, hasn't it? You're healed, sister. Go off the platform rejoicing and be made well. Now, everybody be just reverent as you can.

**L-77** You're the patient, aren't you? All right, sister dear, you believe with all your heart? Believe that God is here to make you well? You do. Now, what do you think about this all, you believe it's the stre--power of the Almighty God? You... Couldn't be nothing else. Well, you've been suffering with a nervous trouble for a long time. You haven't been well for long time. Another thing, you got... Oh, yes, you got something wrong in your back, haven't you, lady? I believe something wrong with one of the disks in your back. Isn't that right? Is that true? Come here. Do you believe me as God's prophet?

Our heavenly Father, I ask for the healing of my sister tonight, as I lay hands upon her, in the Name of Jesus Christ, may this demon turn her loose. Come out of her.

Now, stoop yourself over. All right, here she is with a dislocated spine, back. God bless you, sister, you're healed. Go off the platform rejoicing.

Let's say, "Praise the Lord."

**L-78** Do you believe me, sister? God bless you. I never will forget; I believe you're the first colored lady that's come on the platform since I have been here in the meeting. I never forget a thing that happened one time at Jonesboro, Arkansas. A colored girl coming through the crowd crying, blind. And I prayed for her back in the back of the building. Many of you's heard the testimony, haven't you? Poor thing, no one was paying any attention to her.

And she was coming on. I was standing out there trying to get in, about twenty-eight thousand people had banked the place, and I was trying to get into the building. Been a lady healed with a cancer; they said she was dead. I don't know; I think she was in a coma.

**L-79** But I remember when she bumped into me, she said, "Excuse me."

And I said, "What do you want?"

She said, "I's lost my father." She said, "I can't find him and I's blind, sir."

And I said, "Where you from?"

She said, "Memphis."

And I said... Looked over there and seen that bunch of chartered buses; I was at Jonesboro. I looked and seen that chartered buses setting there, I seen one of them said, "Memphis." I said, "What are you doing over here?"

She said, "I come over to see the healer."

And I said, "The what?"

She said, "The healer."

Nobody there, eight days, that's where I set at the platform for four days and nights without even leaving the platform, praying for the sick. I slept at the platform, eat at the platform, what I eat. And I said, "Do you believe that to be true?"

She said, "Yes, sir."

And I said, "Why, as many fine doctors as we got..."

She said, "Sir, when I was a little girl I had cataracts come on my eyes. The doctor told me when they got ripe," I don't know what she meant by that, "they'd take them out." And said, "Now, they've wrapped around the optical nerve of my eye, if they pull the cataract out they'd take my eyes out." And she said, "I heard on the radio this morning, a man up here from Kennett been blind twelve years received his sight." That's what happened that morning. She said, "I come to see if I could see the man." And said, "They tell me I can't even get near the place." And said, "I've lost my father, and I--I'm blind; and nobody will help me to the bus."

And I said, "Do you believe about that Angel?"

She said, "Yes, sir." And she said...

I said, "You believe that that man would pray for you to get well?"

She said, "I will tell you what you do, if you'll take me by the hand and lead me to where he's at, I'll be able to find my father then."

That was too much for me. I said, "Do you believe that's true?"

She said, "Yes, sir."

I said, "Perhaps I'm the one you're supposed to see."

And she grabbed me; she said, "Are you the healer?"

I said, "No, ma'am, I'm Brother Branham." I said, "Jesus is the Healer."

She said, "Brother Branham, don't pass me." Poor blind girl standing there...

And I said, "Sure, I wouldn't, sister. I'm sure God won't."

And I never will forget, I took her by the hand and I said, "Lord Jesus, some nineteen hundred years ago there was an old rugged cross come dragging down through the streets of Jerusalem, dragging out the Bloody footprints of the Bearer, His poor little thin body, frail, fell under the load..." [Blank.spot.on.tape--Ed.]

**L-80** Name of Jesus Christ, receive your healing, mother. Go off the platform and be made well. Amen. God bless you, go rejoicing and be happy.

[Blank.spot.on.tape--Ed.] Diabetes, go and be made well, my brother, in the Name of the Lord Jesus Christ...?...

All right, bring the lady here. All right, sister, yes, you believe? All right, you keep that tumor when it passes out of you, you send it to me. God bless you, sister. Amen.

Let's say, "Praise the Lord."

Come, sister, you believe? Wouldn't you like to be rid of that asthma? Go breathe in the Name of the Lord Jesus and receive your healing.

Let's say, "Praise the Lord."

Come, lady, do you believe, sister? You like get over that heart trouble, wouldn't you? Go receive your healing in the Name of the Lord.

Let's say, "Praise the Lord," everybody. You believe?

How do you do, sister? Do you believe me as God's prophet? You'd like to be rid of that cancer, wouldn't you? Go and be healed in the Name of the Lord Jesus and be well.

**L-81** That's it, friends. Believe. What do you think setting there sister, do you believe with all your heart? You'd like get rid of that back trouble, wouldn't you? Walk off the platform the other way; you're healed. God bless you.

That's the way to believe it. Now, you're doing it; now you're coming right. All right.

All right, come, lady. What do you think about it? You believe me as God's prophet? Your kidney trouble left you, sister, coming across the platform.

Let's say, "Praise the Lord."

Now, you're believing. Just a moment, when I turned around that lady was healed, with that... Yes, the gray headed lady, setting here, right back there with that green polka dot dress on. You had back trouble too, didn't you, sister? All right, you're healed now. You can go and be well. God bless you, sister.

Let's say, "Praise the Lord."

**L-82** Bring the lady. All right, sister, what do you think about it? You believe? Put your handkerchief in your other hand, lay your hand on mine. What does that look like to you? Strange looking sight there, isn't it? It's cancer. Come here just a moment. You know when the Angel of the Lord met me, that was the first thing He said, "Till not even cancer will stand before the prayer." Do you believe it? I want you to repeat this and watch my hand. Repeat this as I say, from your heart.

Lord Jesus, now I want you to watch, see that moving on my hand? Lord Jesus, [Lady repeats after Brother Branham.--Ed.] I believe You; I accept You as my Healer; I believe that there was a supernatural Being said these things to Brother Branham. I believe His Presence is here now. I accept my healing.

Now, what happened? Something changed there, didn't it? Vibrations stopped, didn't it? Your faith has made you whole, sister, your cancer is dead and gone. God bless you. [\[Matthew 9:22\]](#), [\[Mark 5:34\]](#), [\[Mark 10:52\]](#), [\[Luke 8:48\]](#), [\[Luke 17:19\]](#)

**L-83** Oh, my, poor little baby, Pack it; get him over here. A little fellow, braces on his leg. Come here, darling. You love Jesus, honey? Everybody bow your head just a minute, a little crippled boy.

Our heavenly Father, we thank Thee for child simplicity. Thank Thee for this darling little babe. And I pray, dear God, that You'll heal the little thing tonight. This horrible enemy has struck the little lad in his youth. But I hold his little body against mine and ask in the Name of the Lord Jesus Christ, that You heal him. May this leave him. Come out of him, thou demon, in the Name of Jesus Christ. Amen.

All right, little boy, you the mother of the baby? All right, take the child down there, and take the braces off of it, and bring it back on the--round the platform here walking without them. God's healed the baby.

**L-84** All right, come, lady. Do you believe? Do you accept me as God's servant?

(...?... Is that right...?... Is that right...?... How would I know...?... Is that right? You're going to be well now. That was an abscess that caused that, that draining see.)

Nothing immoral, just something that couldn't be said before this audience, that only God Almighty would know. How about it, sister? Is that right. Nothing but God alone was there when this happened; that's right. The lady and God alone. It's true, isn't it, lady? Go home, for Jesus has made you well. Amen. God bless you.

Are you a believer? With all your heart? All your mind, all your soul? Oh, He's so wonderful. He's here to make every one of you well. Don't you believe it?

Baby, all right, lead him up on the plat... Here comes the little boy with his braces off. Let's say, "Praise the Lord." every... There's the baby, polioed, one foot up, it tickles his foot to run. Let's say, "Praise the Lord." God bless you, brother.

**L-85** Do you believe? What do you think about it? Jesus is here. What do you think about it, brother? Amen. What do you think about it, sir, with a white shirt on setting there. You'd like get over that rupture, wouldn't you? Amen. All right, stand up and receive it, in the Name of the Lord Jesus. What about your wife setting there with that tumor? You'd like to get over it too, wouldn't you, lady? Raise up and receive it in the Name of the Lord Jesus. Hallelujah.

There's... What about the young lady setting there with epilepsy? You want to get over it, lady? If you do, rise up and receive it in the Name of the Lord Jesus. Hallelujah!

Just a moment, just reverent, just a minute. Oh, if you only knew. Where's the ministers of God that

believes in Divine healing? Come here, ministers, come here in front of me just a minute, ministers of the Gospel who believe in Divine healing. I'm going to show you the glory of the Lord. Line right up here in front of me just a moment.

**L-86** One day it come to pass, it was so great that our Master could not touch the people. He sent other seventy. My brethren, do you believe in this with all your heart? How many in here is sick and needy? Scatter back this way, brethren, move way out here, make the line long. You ministers standing right out this a way now, turn this a way. You in this line, turn this a way. And you in that line over there, turn this a way. You in this line here, turn that way.

How many believes that God's glory is fixing to fall on this building and there not be a feeble one among us? I believe He's here. My brethren, in the Name of the Lord Jesus, I'm asking you to represent my hands and God's hands tonight, and I'm going to stand at this microphone, bow my head in prayer while you start laying hands on these people. And I believe there will not be a feeble one in our midst by the time you get through them, laying your hands on the sick. [\[Luke 10:1\]](#)

**L-87** And I want every sick person in here, that's sick and wants to be healed, to stand up on your feet right now, you that's able to. Turn this a way, ministers, don't fail but what you touch each one. All right, you sick people, lay your hands over on one another. Turn around this way ministers, towards the audience. Are you now ready to receive your healing? That's right, the lady's already healed standing there. There's another one healed standing right there. God bless you, yes, brother. There you are; you're through with that; throw it away from... That's right. That one's healed with asthma standing right there. That lady, He healed her cancer, standing right there. Here, that lady standing right there with...?... is healed. That man there, with his eyes. God has made you well, my brother. There.

**L-88** Ministers, walk forward in the Name of the Lord, lay your hands on them.

Almighty God, we come to You in this crucial moment, believing that You're here. Lord, God, we now represent You, laying hands upon the sick.

Satan, you've lost the battle. Thou demon, I adjure you to come out of these people in the Name of Jesus Christ; leave every one of them.

I ask in the Name of Jesus Christ, cripples, stand up on your feet. Here come the cripples up out of the wheelchairs, a cripple's coming up. The people are being healed. Accept it right now, raise up your hands and give God praise. There's a crippled woman, another crippled woman, a crippled man. The power of God is here. Go forward, in the Name of the Lord...?...

### **51-0923 - Jeffersonville High School, Jeffersonville, IN (Paragraphs: 77 - 104)**

**L-78** All right. Now, be reverent, and be in prayer as you can. And bring the dear patient. Come, lady...?... Did you check these cards here, everybody? You wasn't in them numbers there, lady? Do you not get farther up the line? Look. Tell you what you all do: You start praying and believing. Will you do it? Will you there pray and believe? Will you do what I ask? Will you two ladies here, and you there, and you there, you just pray now and ask, say, "Lord, You help me." And if God will speak and help you, lady, you'll believe Him, won't you, on the stretcher, and you here on the stretcher? You all, you'll believe with all your heart? The little girl here...

**L-79** Ladies, I don't know none of you. I've never seen you in my life, as I know of. You're all strangers to me. And back out there, you that didn't have prayer cards and so forth, I don't know you. I don't know of one person here. I believe I know this lady setting there. I believe she's from Tennessee. I believe you was healed, or whatever, your little girl or something in the meeting one time, wasn't it? I recognized her.

And down--down through that line there, I don't recognize anyone. I know this lady setting here; she's a nurse...?... That's right. You're with her. All right. All right, sir. Now, I believe that's it.

Now, up in the galleries and balconies, rather, just have faith and believe. Now, believe with all your heart. Just let everything drop aside. Just say, "Now, I'm going to lay everything back, and I'm going to watch."

**L-80** Now, if I've told the truth, our heavenly Father will speak it through me. If I tell not the truth, He'll have nothing to do with me. Is that fair? That's fair. Now, let the heavenly Father, Who I pray in His Name, that He'll come and confirm what I've said to be the truth.

I'm just a little short, and now, the microphone to me. I don't know when I--where I'm at when I'm doing this so many times, when It comes upon me.

How many knows that that's Scriptural? Why, Daniel saw one vision; he was troubled at his head for many days. Is that right? And Jesus, when a woman touched His garment, He said, "I perceive that virtue has gone from Me." Got so weak, He laid in the back of a boat and didn't even know the storm was on. Now, be reverent. [\[Daniel 4:5\]](#), [\[Daniel 7:5\]](#)

**L-81** Now, you're the patient, aren't you, lady? All right. Now, I'm--just want to talk. Can you hear my voice, back there now, to where I'm at? All right. Now, be reverent, every one.

Now, I believe you're a stranger to me, lady. I don't--don't know you. And I--I've never seen you in my life. Well then, we're perfect strangers tonight. Now, of course, you felt a real odd feeling. Now, that's nothing to hurt you. That's just the anointing that's coming on me. And--and you're believing me. See? You believe me, because I can feel it welcoming (You see?), and I know that you are a believer. Now, that won't hurt you; It's to--It's to heal you, to make you well.

Now, if there's anything in your life, or concerning you, that--that I don't--I would know--have no way of knowing it, 'less it be revealed to me through the Spirit. Is that right? Has to be a supernatural One.

Now, if we are strangers, hold up your hand there, so the people will see. We don't know... And the only thing that you know now, that there's a real, kind of a sacred, calm feeling here: It--it--it--it kind of satisfied feeling. If that's true, so the people can see, rai...? Right.

**L-82** Now, what it is, audience, It's moving down just now, the Lord Jesus, the Spirit that was upon Him. And my body is becoming moved out now (See?), or my life. Now, it looks milky around over the audience. See? Now, I don't whether I can talk to you much longer or not. Now, it's for the sister. Now, I want you to understand, lady, that's it's truly just the Spirit of the Lord. And now, Jesus when He stood, it was the same thing, the same way, the same operation. And it's not me. He said, "The world won't see Me after a little while, but you'll see Me; for I'll be with you, even in you, to the end of the world."

**L-83** Now, what I'm trying to do now, is just get a contact of your spirit. See? You're human. And the woman at the well, He talked to her; said, "Go, get Me a drink," just to get a conversation. Then He told her just exactly what was the matter with her. Is that right? Now, if His Spirit is here tonight, It can do you the same way. Is that right? Now, isn't He lovely? Wonderful Christ, isn't He? I've loved Him, lady, with all my heart. I love Him now. And I done--know as I go into the dark lands there, I'll be under witchcraft and wizards, and--but I know Who I have believed, and I'm persuaded He's able to keep that which I've committed to Him against the day.

Yes, ma'am. Now, I see, standing before you, you're--just been under an operation, haven't you? You've had an operation some time ago. Been years ago; it was for a tumor. And that tumor was on the face, now I believe. Is that right? I see the surgeons when they're performing the operation. That tumor's come back again. Isn't that right? Is that true? All right, you're healed now; you can go off the platform and be made well. God bless you, sister.

Another thing, I noticed in there, you've been praying, haven't you? And you've never--and in your life, you haven't had a satisfaction to live just like you've always wanted to live. Is that right? That's going to be granted to you, sister. And you go on; you're going to be all right. I seen you praying, and I knew; you was praying by a chair, and that... God bless you, you go now.

Let's say, "Praise be to God." It's left her. You can look at her. She's all right then. She's well.

**L-84** Oh, my, bless her little heart; bring her. Come, sweetheart. Did she have a prayer card? Hi there, honey. The mother? Don't weep, mother. I want you to look this way to me. Do you believe me as His prophet, as God's prophet? I'm a stranger to you; I don't know the baby; I've never seen her. But that baby has a heart trouble. Isn't that right? It was born with a heart trouble. It was born in that condition. Is that right? I heard a doctor say that, that it was. Now, you've prayed. And when you heard that I was going to have this meeting, you said, "If I can get it to Brother Branham, and he'll pray for it, it'll get well." Isn't that right? I'm not reading your mind. But I'm telling you what you did. Is that right? All right, bring the baby to me.

Almighty God, the Author of Life, and the Giver of every good gift, I bless this child in the Name of Thy Son, Jesus, to in-firm the faith of this mother; may the child live and be well. In the Name of Jesus Christ, I ask this heart trouble to leave the baby. Amen.

Don't worry about your child. Your child will be all right. Take it off now. Let's say, "Thanks be to God Who gives us victory through our Lord Jesus Christ, brought Him again from the dead." Now, He's here to heal and to make well.

**L-85** Now, all right, bring the lady here. All right. Every one reverent. Now, if you'll notice, audience, the expression on the people's face as they begin to draw near the platform. See what it is? If you could only feel just what this is now.

How many of you seen the picture of It, where they took it? Let's see your hands up like this. Where George J. Lacy, and the FBI, and all of them examined it. It's near us right here now. That's what's the matter with the lady. She feels that. Now, there's something wrong with her. I feel it moving against me (See?), just like a dark cloud going, "Whewww, whewww, whewww." [Brother Branham makes a blowing sound--Ed.] Now, what it is, I do not know. Now, I just want you to look this way, just a moment, lady. Now, try to be just as calm as you can. See? And... Now, we're strangers, I believe. I don't know you. I don't--I don't believe I ever seen you. Well, then we'd be--we'd be perfectly total strangers then. [The lady speaks to Brother Branham--Ed.] Yes. Now, there's nothing here that will hurt you, lady. Now, you--I want you to look this way to me. Just look to me and believe with all your heart you're going to be healed. Do you believe? All right.

**L-86** If--if I know anything wrong with you, it'll have to come from our heavenly Father. Is that right? Now, you just be reverent. 'Course, I see you're coughing, but that's just a tickling in your throat. Now, that isn't your trouble. I see you as... Oh, yes, you've just had surge--No, you've just been examined, and you've--you got cancer. And the cancer is located on the womb. The doctor told you there's nothing can be done for it. And now it--there's only one hope that you have, and that is in Christ Jesus. Is that right? Are those things true, what was said? Then do you believe if I ask Him, you'll get well? You'll be as Miss Morgan and them? Would you bow your head, audience?

Our heavenly Father, we thank Thee for Thy mercy. And I pray Thee to bless this woman, who I bless in Thy Name. And may, now, Your Spirit come upon her. She wants to live. And I ask for this blessing. And may this hideous demon of cancer leave the woman; in the Name of Jesus Christ, the Son of God. Amen. God bless you, sister. Now, go testifying of your healing, and praise Him with all your heart.

**L-87** All right, bring the lady. Howdy do, lady? Do you believe with all your heart? You are... You have real strange feelings, don't you? Especially, in the late part of the afternoon. I see you getting kind of a leery, weary-like feelings. You're nervous, is what's the matter with you. It's due to the time of menopause. It's the changing time of life. You get real weary thoughts.

A few days ago, when you heard of this meeting, you told God that if you'd get--let you get up, you'd be prayed for, and you'd be healed. Isn't that right? And you're taking some kind of a shots for that, aren't you, sister? Yes, I see you're taking; I see them give it to you in the... Isn't that right? Come here. Do you believe me as God's prophet? Have I told you the truth? And you believe that comes from God?

Well, if I told you what was truth, then by the Spirit of God, I tell you what's truth now. You go out of here; be real happy. You're going to be well, for Christ has blessed you, and you're going out to be well. God bless you, sister. Yes, ma'am.

Could we say, "Thanks be to God." That might not seem very much to you, but what if that was you? Have faith in God. Believe Him with all your heart and God will bring it to pass.

**L-88** All right, the lady? Howdy do, lady? I believe we're strangers too, aren't we? Where was... What service were you in? In Louisville. You was at the Male High School Auditorium. Yes. We have right nice service, the best of my memory. You couldn't get a prayer card. But there--then when you got this prayer card, how happy you felt. You... Saying in your prayers, if you could get in the prayer line, God would make you well. You're wondering now what I'm going to say. You're suffering with a heart trouble. Isn't that right? You have a heart trouble; it's enlarged heart. Then you also--you... Don't you have a gallbladder trouble too, isn't there kinda... Don't you have stones in the gallbladder? Is that right? Go on your way and be well, sister; in the Name of the Lord Jesus, may He grant this.

Let's say, "Praise be to our Lord." That might seem very strange to you, but that's the same thing that Congressman Upshaw, when he was an invalid for sixty-six years, was made whole. He's here. His Presence is here now. He knows all things, and He can do all things.

**L-89** Do you believe that, lady? You do? You believe it, lady? You believe with all your heart, do you? What about in here? I want you to pray now. Keep praying. Believe with all your heart.

All right, lady, come. Now, every one real reverent. I trust to God, we could get down in this cripple line, just in a little bit.

Howdy do, lady? Do you believe with all your heart? You believe? You believe that God will make you well? You'd like to get over that asthma condition, wouldn't you? Yes. Wouldn't like... Go, as you have believed, it will be to you. And may God bless you. That was really...

Now, just a moment. Every one real reverent now. Every one reverent. Let the lady, come.

**L-90** Someone right in here is praying. Seems like something just pulls you. It's getting weak.

Howdy do, lady? I perceive that you're a believer. Now, that lovely feeling... If our Lord Jesus was here, He could tell you what was wrong with you. He could help you, could He? Well then, if He was--if He was standing here, He--only thing He could do would be to tell you what was wrong with you or--or your hindrance with something. Isn't that right? See? He could--He's already made the atonement for your healing. Now, look this a way, just a moment. Would you like to be free from that nervousness? You would? Raise up your hand like this, say, "Thank You, Lord." Now, go on your road and be well in the Name of the Lord Jesus. God bless you, sister.

**L-91** Let's say, "Praise the Lord." Do you love Him? He is here now. Sister, stop worrying about your boy, back there. He's going to get all right. Little boy that was run over, he's going to be all right. Father backed over the child. See? All right, just have no fear now. He's going to be all right. Every one reverent.

All right, come, lady. Do you believe me to be God's servant? You do? Do you believe that the--Jesus that bore the cross of Calvary stands present now and here at the platform to make you well? You do? Been failing for a while, haven't you? Yes, ma'am. All right, you'd like to get over that asthma that you have. Come here just a moment. Father, I bless this woman in the Name of Thy Son, Jesus, that she's made well. Grant this kind blessing, in the Name of Jesus Christ. Amen. All right, lady, don't fear no more. Go on your road and be happy. Christ makes you whole.

**L-92** Let's say "Praise the Lord." You love Him with all your heart now? You feel a lot different now, don't you? See, that nervousness has left you, that tension. Now, many times they say nervousness, "Get next to yourself." See? That isn't to be done. It's something that causes that. Now, when you're standing here awhile ago, it was like a black cloud come floating up against me, going, 'Whewww, whewww. [Brother

Branham makes a blowing sound--Ed.]. "Now it's gone from you. You're all right now. Now, go and the peace of God be upon you, 'cause you're going to be well.

**L-93** All right, every one reverent and bring the baby. Howdy do, mother? Mercy, look at the baby. You're very sick, aren't you? Yes, ma'am. Yes, ma'am. You believe He'll make you well. Is he hearing? Which ear was it in, lady? Do you believe it with all your heart? Come here, just a moment. Merciful, heavenly Father, I come in the Name of Thy Son, Jesus, as Your servant, asking for the deliverance of this woman. Grant it, Almighty God. May she go from here tonight, a normal, well person, in the Name of Jesus Christ. Amen.

You understand me all right now? Hear me do that? How long have you been that way? You're all right now? Can you hear all right. It's all gone. You're healed now. You can go on your road rejoicing. God bless you, sister. Let's say, "Thanks be to God." The little woman... Yes. All right. Everybody be reverent.

**L-94** All right, come, lady. Amen. Do not fear. Only have faith. Our Lord is here to make you well. You're--you're very fearful though. There's something wrong. I don't... Yes, I do: cancer. You know that? You're scared it's going to take you. Have faith in God. You're in His Presence now, sister. The only thing that can ever help you--can ever do you any good, you're standing near It now; not I, your brother; but this that you know It's present by you. You're conscious of that, aren't you? You know that there's something there.

All right, come here just a moment. I want to show you something. I want you to look at my hand. Looks just like an ordinary man's hand, doesn't it? I want to show you the effects of a cancer. Lay your hand in here on mine. Now, look at there. See those little white things running across my hand? I would call that a vibration of cancer. Want the audience to look at that.

Now, watch here. I'll take my hand off. Look at my hand now. See? I put my hand on it. Put this other hand over here on it, sister. Come here, Billy. I know there's nothing wrong with you. Touch my boy's hand here. I'm going to put--look at my hand now; just normal like any other man. Is that right? Now, watch here. I'll put my hand on. Now, put your left hand on it. Now, change your hands, sister. Now, put this hand on. Now, looky there. See what I mean? Now, there's something that you know that's there. Now, I believe in the vision told you what it was: cancer.

**L-95** Now, see, in you is a--is a--a power. In other words, it's a growth, a living. Now, when you were born, you were just a little germ in the womb of your mother. And you begin to delop--develop cells, come forth to a child, and you're where you are now: a multiplication of cells. Is that right? Now, there's something else in there that's got a multiplication of cells, which is called cancer. It's got a life, a different life from yours. It's in you, eating you up. Now, that life in there, and me being anointed, and you're... You know that there's something going on, don't you? Now, watch here when you put your hand on there, watch the results of that. Now, Jesus said in the Bible here, "They shall lay hands on the sick." Is that right? That's what He means. Now, see it? Now, when I move your hands, move it off. Watch here. I put my hand on; there's no different. Now, audience, you see that.

Now, I can't make it leave the woman. I know what she has. Now, there's a life in there; a growth, malignant. It's going to take her life, if something is... Now, the only thing could happen would be like, if you would take her life out of her, her body would drop down here dead. It'd still be here, but it would be--it wouldn't be active. But she'd finally decay and go away. Now, if that life goes out of the cancer, the cancer dies. The woman will be all right for about seventy-two hours, then when the cancer begins to decay, or rot, then corruption sets in, and the cancer's laying in her. The growth's dead, like a tumor or something, and a wad of flesh. And then the heart stream--or the bloodstream picks it up and makes her have fever and sick for about twenty-four hours, something like that, maybe a little longer. And then she gets all right.

**L-96** But now, watch here. The Bible said, "In the mouth of two or three witnesses, let every word be established. Is that right? How many says that's Scripture? All right. The woman's a stranger to me. I

don't remember what was told her, 'cause it--I didn't--don't... But I know it was cancer. But what I said was the truth, wasn't it? Now, you're a stranger and we're both human. And you come here, and you lay your hand on mine. Now, first thing, there's one witness; that is, that It told you what was wrong or what was done, or... That was right, wasn't it? That's one witness. There's another witness that there's something physically taking place, that you can see with your own eyes. Look. See them little, like a warts running over my hand. See? Say, female disorder also. Isn't that right? You've had that for some time. Uh-huh. I never seen you in my life and how would I know that? You know there's a supernatural Something, anointing here, isn't it? Now, if I should take that--if it should leave you, that would stop. If it doesn't, I--I can't make it go. But do you believe me? Do you accept me as God's prophet, Jesus Christ as your Healer? You do that? And believe that I told you the truth? [\[Matthew 18:16\]](#), [\[II Corinthians 13:1\]](#)

**L-97** Let us pray. Now, audience. Now, this is one--a stubborn case of cancer. Whether it will leave her or not, I do not know. I want her to watch; I want your eyes open, watching my hand. May I lay--I want you to notice, lady. It isn't as somebody out there is thinking. Don't think this is mental telepathy. It is not. Now, you get that out of your mind (See?), 'cause it's not.

Mental telepathy show something like this? You say, "You're reading the woman's mind." That's right, but I'm no mind reader. Jesus Christ read the people's minds. Is that right? He perceived their thoughts. But Jesus said... Did you ever see a mind reader preaching the Gospel? A doing any... You seen the little old sign setting out here on the street, charging people to deceive them; but Jesus said, "By their fruits you shall know them." A corrupt tree cannot bring forth good fruit, neither can a good tree bring forth corrupt fruit. Is that right? And it's not mental telepathy, certainly is not. See? [\[Luke 5:20-26\]](#), [\[Matthew 7:15-20\]](#)

**L-98** Now, as I say it, lady. See you can't... You see it's not the position you--your hand's in, it's everywhere. See? But I want you to watch my hand. If it leaves, I want you to believe. If it leaves, all right. If it doesn't, you're... Only thing I know, sister, is make peace--keep peace with God, go to meet Him in peace. If it leaves you, you're get well. Now, it's your faith in God that determines it. But I shall help as way of praying and see if it would leave you, that would encourage you. See? But it would merely come again if you disbelieve. You've got to believe. Just like in salvation, you got to believe you're saved, and act upon it.

But now, every one bow your head. And if anyone setting here is hard of hearing, you tell them to keep their head down during this time, and do not raise their head till I call you. I want you, lady, the patient, to watch. You're the one that has the cancer.

Our heavenly Father, Thou knowest all things and know that I'm not here trying to make a public show to display Your Divine gifts. But my heart is thrilled tonight to know that here in this city that Your--Your Spirit has anointed Your servant to see and to know of these things. And here sets my people, my brothers, my mother, many of my loved ones who's setting here. O God, how I thank Thee that Thou art ever near.

And now, this lady has come with a cancer, a hideous demon called in the medical name: cancer. You would call it a demon, which it is, a tormentor of her body. Knowing that life is just a little while for her, except Thou will help her. I pray Thee to be merciful. I've ask now that this woman here might see and show the physical results, and how my arm is stiffening and dying, feels like it's--it's asleep or something, of where the power of that enemy that's sent to take her life. God have mercy. Thou spirit of Satan, who's bound the woman, in the Name of the Lord Jesus Christ, leave her. Come out from her.

**L-99** Now, every one with your head bowed; I haven't opened my eyes, but, lady, it hasn't changed, has it? It's just the same as it was. The cancer's still there, hidden. Now, you have faith now. Let's pray. Every one bow your head now and keep in prayer. And you watch.

Father, please, if I have did wrong, may You forgive me. And this enemy is trying to hold her life. And dear God, standing up yonder, You the Spirit Who came to me that night in that room and told me to go

do these things, and You'd be with me, You have blessed it, Lord, and have proven it to be true. And now, Lord, I come humbly in Your Name to ask this blessing. And I just don't... Won't You, Father, please don't hold it against me to try like this would be a public show, but, Lord, bless this dear woman and give her this great witness, as she's watching my hand, reverently, knowing that her life is just a few days more unless Thou will help her. And she'll go home encouraged and be made well. Bless Thy servant, Lord. I testified of You. Now, You have said, "In My Name they shall cast out devils." Help me as I go forward in the duel of faith to challenge this great hideous demon that's taken her life. Thou demon called cancer, I come in the representative Name of Jesus Christ that died at Calvary. I charge thee by His death, claiming a gift of Divine healing that was ministered to me by an Angel, that you're aware of, come out of the woman; in the Name of Jesus Christ, leave her. Now, keep your head bowed everywhere.

**L-100** Now, lady, before I open my eyes, something happened then, didn't it? You can raise your head every one 'fore I do. Something's happening. It... You're healed, lady; you know when it left you. Go home now; you're going to be well. God bless you. Let's just say, "Thanks be to God." "Thanks be to God." Now, bring the lady here again just a moment, if you will, so that...

Come here, sister. I want the audience here to see my hand now. Come right back around this way to see what's happened to you. Now, awhile ago when I'd take a hold of your hand, well, big white whelps would run across my hand. Look at it now. Do you see? Now, something's happened, hasn't it? What's happened? You're hea--you're healed. Go home; be well now, sister; your faith has made you whole.

Let's say, "Praise be to God." The Bible said, "The people praised God for such wonderful..." That's not me; that's the Lord Jesus, your Saviour. He's here at the platform. The very same act that was in the Scripture is being done right here. Believest thou this? All right. Have faith.

**L-101** All right. Come, lady. Howdy do? Very kind looking person, I perceive a Christian. How would I know you were a Christian? You remember, the Spirit was upon our Lord, that when Philip come to Him He said, "Behold, an Israelite, indeed, in whom there's no guile." Mother... He said, "Whence knowest Thou me?" He said, "When, you were under the tree." And I knowed you when they told you you had heart trouble. Isn't that right? Now, go and be well in the Name of the Lord Jesus. God will bless you. You're going to be... [\[John 1:44-51\]](#)

Let's say, "Praise the Lord." Let's hear this audience say, "Praise the Lord." Praise the Lord. That sounds good.

**L-102** All right. Come now, bring the lady, if you will. Howdy do, sister? You and I are perfect strangers, aren't we? I do not know you. I want to speak to you just a moment, something; I see it moving before me. You have a female trouble, caused a burning (Is that right?) of the...?... seen you in a room...?... That right? Those things are true? [Brother Branham speaks to her privately--Ed.] That right? Now, nobody at all would see that, only Almighty God. Is that right? Raise your hand if that's true. Only Almighty God would know that, a what was told the lady just now. And I seen her, what she was doing and told it now. Is that right, lady? All right. You're healed. You have believed. You can go and be made well...?...

Let's say, "Thanks be to our Lord Jesus," every one now. Amen. Have faith in God; God will bring it to pass. You believe? Our Lord Jesus is here now.

**L-103** Friends, I'm afraid you're not conscious of what's going on. The very God of eternity; the God Who made the heavens and earth; the God that was upon our Lord Jesus, brought Him from the dead, anointed Him and He went about doing good; is here in this auditorium in Jeffersonville, Indiana, tonight. He's here now. Be reverent; believe with all your heart.

**L-104** All right, bring the lady. Every one real reverent. All right, come. You're the--you're the lady, aren't you, sis? All right, come here just a moment. Howdy do, sister? A believer, well aware of where you're

standing now. Now, That will not hurt you. See? That's to do you good. Now, there's something wrong with you. You are... I see you crossing a street. And you're getting down kindly slow. You have on a light looking dress and you lean back. It's arthritis, isn't it, or some...? Is that right? Arthritis? You get out of the bed of a morning; I seen you kindly move slowly, don't you? 'Cause you can't hardly get up. But you have believed. You accept me as God's prophet? Raise up your hands in the name of the Lord. Stomp your feet up and down. The arthritis leaves you; go off the platform; here is your pock--pocketbook. Saying, thank the Lord, and go ahead off, and praise Him. Let's say, "Praise the Lord." like this, everybody give God praise. All right. Have faith.
